EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Sun on 12/6/04.

The application has been amended as follows:

In claim 68, line 5, after "bends" the phrase -- when the stent is expanded---has been added.

In claim 68, line 7, after "bends" the phrase -- when the stent is expanded; wherein each cell in the first longitudinal row of cells shares a strut with at least one cell in the second longitudinal row of cells---has been added.

Claim 69 has been deleted.

In claim 78, line 1, "69" has been deleted and replaced with --68--.

In claim 79, line 1, "69" has been deleted and replaced with --68--.

In claim 80, line 1, "69" has been deleted and replaced with --68--.

In claim 78, line 1, "fourteen" has been deleted.

In claim 79, line 1, "fourteen" has been deleted.

In claim 80, line 1, "fourteen" has been deleted.

The following is an examiner's statement of reasons for allowance: the stent having a longitudinal axis and a plurality of cells with the first and second adjacent

longitudinal rows of cells being non-symmetrical and the cells of the first row sharing a strut with the cells of the second row was found to be novel. The first row of cells has exactly 12 bends in the expanded form. The prior art did teach cells with exactly 12 bends, but failed to teach adjacent rows having different numbers of bends and nonsymmetrical cells.

Allowable Subject Matter

Claims 68,70-81 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
